Site visit by MHT Staff ☐ yes ☒ no Name: _____ Date: _____

Description of Property and Justification: *(Please attach map and photo)*

This farmhouse has been demolished. A frame bank barn with several extensions and two frame sheds remain on the property.

In 1981 MHT as part of the Coal Region survey, documented a two-story frame dwelling located at this site. It appeared to date from circa 1900. At that time MHT stated that "it has been so altered that it lacks architectural significance". Since the house is now gone, the remaining buildings lack integrity due to removal of a primary component of the building complex. The property is not associated with local events that have made a significant contribution to the broad patterns of history nor significant persons of the past. The remaining buildings are not examples of a significant architectural type, style or period of construction, nor do they retain distinctive visual qualities of location, setting, materials or workmanship. Therefore, the property does not appear to meet National Register Criteria A, B or C. Archaeological assessment for Criterion D was not done as part of this evaluation of above-ground resources. Therefore this site is recommended as ineligible for the National Register of Historic Places.
